Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner telephoned Mr. Swanson to discuss a potential new matter issue with the specification and certain claims. It was suggested to Mr. Swanson to change the particle size range of claims 19 and 29 to read "0.1 to 5" and adding the term "about" before "0.2" and "3" in claims 21, 31 and 39- 44. Specification was suggested to be amended to include the same range also. Mr. Swanson agreed to all the suggestions and it was decided to have the amendments done by an Examiner's amendment (attached).
